# INTRODUCTORY

IN INTRODUCING our Homefurnishings to you by means of this Catalogue, we do so with the hope that it will result in making you a permanent customer of our store. More than a quarter of a century devoted to the exclusive selling of furnishings for the home has given us a unique and unparalleled experience in the art, and one that should stimulate the confidence of every person who lacks a knowledge of furniture construction to put unlimited trust in our ability to supply the best that can be had.

Every department of our great store is in charge of thoroughly capable managers and buyers of many years' experience, who are in touch with the best markets and who possess the knowledge of experts. As a consequence, our stocks are always replete with the newest and best of homefurnishings to be obtained anywhere.

This Catalogue will enable you, however distantly located, to enjoy the purchasing advantages of residents of the largest cities. In condensed and compact form it brings to your home a part of the largest homefurnishing stock in the Dominion, and makes it possible for you to furnish the entire house without the expense and trouble of a journey.

We have endeavored to make clear everything contained herein, and aimed to describe faithfully each article, and you will find nothing that is unworthy all we say of it. The illustrations are all photographic reproductions of the actual pieces, and though necessarily very small—in many cases losing much of the finer details, carving and beautiful grains in the wood—yet they are shown by the only truthful means of representation and are further vouched for by a guarantee that if they do not correspond in every particular with the descriptions quoted, we will return your money to you.

We desire that you should make any enquiries concerning our methods, and compare them with those of other first-class firms. Business etiquette forbids making any direct comparisons ourselves, so we are compelled to depend upon the intelligence and discernment of enquirers to distinguish the difference.

That our merchandise and system is appreciated, the rapid growth of our business bears eloquent testimony. We cater to the thinking element with honest goods and upright methods. Our willingness to refund the money on all that is not entirely as represented should eliminate all doubt from the minds of those who wish to do business with us.

We will spare no pains to give you the utmost satisfaction—whether your purchase be one dollar or one thousand. We realize that it would be the poorest kind of business policy to sell you anything not calculated to satisfy. To make of you an enthusiastic customer, we must give you goods that will produce a *lasting satisfied feeling*.

Do not hesitate to write us if at all in doubt, or if you do not see in this Catalogue what you want. We will make a study of your wishes and treat your communications as carefully as if you came in person to our store.

## WHAT A FEW OF OUR PATRONS HAVE SAID OF US

### From British Columbia.

Nelson, May 1st, 1907.

THE ADAMS FURNITURE CO.,

TORONTO, ONT.

DEAR SIR:—The furniture arrived O.K. ten days ago, and I am very much pleased with same indeed. They arrived in good shape, and I must congratulate you on your excellent system in packing. The goods are A1, and for the money, I consider can't be beaten anywhere.

### From Cape Breton.

Glace Bay, April 30th, 1907.

MESSRS. ADAMS FURNITURE CO.,

TORONTO, ONT.

DEAR SIR:—Furniture received O.K., and very satisfactory.

### From Nova Scotia.

Flat Lands, May 13th, 1907.

MESSRS. ADAMS FURNITURE CO.,

TORONTO, ONT.

DEAR SIR:—I received goods in splendid condition—not a scratch, and I am delighted with them. I had no idea I was getting such a bargain. They are 50 per cent. better than I expected. I want to thank you for the care you took in packing them.

### From Manitoba.

Gladstone, June 28th, 1907.

THE ADAMS FURNITURE CO.,

TORONTO, ONT.

SIR:—The Baby Go-Cart you sent me, cost laid down here, \$12.83, and the cheapest they can be bought at here is \$23.00, and they are not nearly as good as the one you sent me; so will leave it to yourselves to judge whether I am satisfied with my purchase or not.

### From Ontario.

St. Catharines, April 16th, 1907.

THE ADAMS FURNITURE CO.,

TORONTO, ONT.

DEAR SIR:—I am very glad to be able to write you that all the goods arrived in perfect condition. I am pleased with everything. We have laid the linoleum and it looks very nice. I shall not fail to let you have my custom in the future.

Thanking you for being so prompt in the delivery of the goods, I remain,

### From New Brunswick.

Campbellton, Jan. 4th, 1907.

THE ADAMS FURNITURE CO., LTD.

TORONTO, ONT.

DEAR SIR:—In regard to the beautiful sideboard I received from you would say that it

arrived in first-class order. It indeed came up to my expectations. Had I been in your warehouse, I could not have chosen more to my satisfaction.

One great feature in ordering from you through your catalogue, is that the cut of every article represents exactly what you state; also, you take great care in packing; there was not one chafe on sideboard. I am very pleased with my purchase, and, in future, all furniture that I require shall certainly be ordered from you.

### From One Who Visited Our Store.

Cedar Grove, Ont., June 5, '07.

THE ADAMS FURNITURE CO., LTD.

TORONTO, ONT.

GENTLEMEN:—The Carpet I bought from your Mr. E— on May 28th, arrived at the station on June 1st. We have it laid and it looks even richer, more appropriate, and the colors blend with the other colorings of the room better than we ever expected, or even hoped for them to do.

I had the pleasure of recommending your store to my neighbor, Mr. —, who will purchase at your store. I think it only just to you to let you know of the entire satisfaction your goods have given all the members of our family, and desire you to convey to your salesmen my appreciation of the gentlemanly, courteous and business-like manner in which they displayed your goods.

We have hundreds of complimentary letters on file from people from all over the Dominion who have dealt with us, testifying to their complete satisfaction and praising our mail order service. The few extracts of letters given above are intended to show the breadth and scope of our operations.

# GENERAL INFORMATION

## Guarantee

We warrant everything we sell to be just as represented, and that the material, workmanship and finish is the best in its class. If you do not find it so, you can send it back to us and your money will be returned to you.

## Terms

**Our terms are cash with order.** Our prices throughout this catalogue are net, and based upon the smallest profit margin that reliable merchandise can be sold for.

It is useless to write us for our "best price" on such and such an article (as is frequently done). If you compare our prices with those quoted by other reputable firms, you will find we are much below any. Positively no discounts from catalogue prices.

## How to Order

When ordering give name and number of each article as it appears in catalogue, and if there are different finishes and trimmings in one description,—for example: if a table is described as being in either oak or mahogany finish—state which is preferred by you. **Do not fail to write your name and address plainly.** Carefully fill out order blank. Do not cut up the catalogue; you will need it for future reference. Order by name and number of article and page.

**Remember, we make no charge whatever for packing and crating goods carefully.**

## About Sending Money

Avoid sending money by open mail. It exposes to temptation every one through whose hands the letter may pass and is liable to a loss without a chance of its recovery, while Post Office and Express Money Orders, Bank Draft or Registered Letter can be had at small cost with but little trouble or delay.

## When You Receive Goods

It is advisable to make an examination of your goods on arrival before signing for them. If any appearance of damage, **insist** that agent makes a note of it on your freight bill. This is important, as railroad companies are responsible for any damage in transit. It is necessary to prepay freight when goods are to be shipped to a station where there is no resident agent. Sufficient money should be sent with order to prepay charges. Better send too much than too little; we will refund all over amount used. We cannot get a "special" rate. Freight charges can be paid on arrival of goods at all regular stations where there is an agent.

## Mistakes Will Happen

It is impossible that in a business of the magnitude of our establishment mistakes will not arise; therefore, when an error occurs, or you are at all dissatisfied, we ask your indulgence. Kindly write us as pleasantly as possible, and rest assured that we will do all in our power to make right any omission.

## PARLOR FURNITURE

THE ingenuity displayed by furniture manufacturers in keeping pace with the demands of people of taste is demonstrated in the dainty creations of upholstered parlor suites and odd pieces we show here with.

Particular care is exercised in the construction of frames, whether of the finest selected mahogany or woods of the commoner sort. The work of the cabinet makers, upholsterers and finishers is done in a most thorough manner, and in all respects first class.

Whenever desired, we will submit samples of coverings if colors and materials are stated, although you may rely upon us to send the choicest design in any color procurable.

No. 352

### Two-Piece Parlor Suite

This very dainty little suite is designed for those whose desire is for odd pieces in the drawing room, and the style is such that either divan or arm chair can be used as an odd piece, and may be bought together or separately.

Frames are of selected birch-mahogany, hand rubbed and finished like a piano; spring seats, wire construction, fitted with the new style loose cushions, covered with beautiful crushed plush or velours, in assorted colors. A very desirable and pretty outfit.

# This Handsome Three-Piece Parlor Suite only \$18.95

Here is a dainty three-piece suite that we have had many expert valuations upon, and it has been variously estimated to sell at from \$25.00 to \$35.00 by competent furniture dealers who ought best to know its worth.

It is not only in appearance a most desirable parlor suite, but is in every way a well-made and thoroughly dependable three-piece outfit, carrying with it our regular guarantee of absolute satisfaction.

A striking example of our ability to offer the choicest products of furniture manufacturers at very much lower prices than is generally asked by furniture houses throughout the Dominion. It is but one of the many excellent values presented in this catalogue.

**THE FRAMES** of this pretty parlor suite are made of selected birch-mahogany, wood being thoroughly prepared and kiln-dried before the manufacturing process. The design is at once graceful and well-proportioned, being finished on lines in keeping with the latest drawing room furniture; frames are put together in a thorough manner—just as well as the cabinet-maker knows how to construct them; besides being neatly carved, each piece is hand-rubbed to a brilliant polish finish.

**THE UPHOLSTERING :** The seats are fitted with our guaranteed construction oil-tempered springs, have full stitched edges and are double stuffed; the springs and filling being covered with cotton before the outer coverings are put on—thus giving extra strength. Coverings are of fine French tapestry; back panels are upholstered and button tufted, giving the pieces a decidedly rich appearance. Samples of coverings used in this suite can be had on request if preferred colors are stated. A beautiful assortment of colorings and patterns to choose from, in greens, browns and reds. . . . .

# This Handsome Five-Piece Parlor Suite only \$17.45

On this and the following five pages are illustrated an assortment of five-piece parlor suites that we are certain for variety, quality and style are unapproached by any showing made by any other house in the Dominion. In this section of our immense store is displayed a most beautiful collection of upholstered furniture, including upwards of one hundred designs of parlor suites alone.

IN BUYING ANY PARLOR SUITE SHOWN IN THIS CATALOGUE, YOU ARE ONLY PAYING US ABOUT THE SAME PRICE THE SMALLER DEALERS PAY THE MANUFACTURER.

The illustration pictured is one of the many examples of well-made and most desirable medium-priced suites that we offer at little cost.

**The Frames** of this splendid suite are well designed. The accompanying illustration can scarcely do justice to the excellent finish and general good workmanship. Made of selected birch, with a rich mahogany finish, being hand-rubbed and highly polished. The backs of frames are very neatly carved, with neat open-work design in center of settee. The rocker is large and comfortable and is mounted on platform with patent spring attachment; arm chair is built wide and arms are broad.

**The Upholstering** The spring construction of the seats of this suite is well-nigh perfect in every detail. We use our patent steel construction, which consists of oil-tempered springs securely fastened and carefully stuffed to insure utmost comfort. Coverings are of fine quality velours; backs are neatly upholstered to correspond with seats.

**The Design of this Suite** is one that is exclusive with us, and cannot be seen in any other store. We present it with every assurance that it will be satisfactory, and, although the price we ask is unusually low for a suite that is of such good design and thorough construction, it will be found to measure up to a very high standard of excellence.

This suite can be bought either complete or in single pieces, as follows:—

# The Luxury of a Davenport

Probably no piece of furniture of modern times has awakened more interest among homekeepers than the Davenport Bed. Certainly nothing in the way of home furniture can make for economy of space and produce the comfort and convenience that a davenport brings into the home.

A large, luxurious, inviting and restful couch by day, it stands a splendidly useful article for any room without betraying the great full-size bed it may be converted into when the unexpected guest arrives.

## The "Daveno"

The illustrations on this page show the simple operations and different positions of the "Daveno"—a combination sofa and bed that is made in a number of handsome designs.

The "Daveno" has special advantages over the average style of davenport, notably, when made up for use as a bed, it has a distinct separate mattress and spring, in which case the sofa cushions are not called upon to do mattress duty at night. Another distinctive feature with the "Daveno" is that it may be operated, or opened out, without being drawn away from the wall. The "Daveno" is one of our popular specialties, and we highly recommend the purchase of one of these splendid pieces of furniture to anyone who desires a first-class parlor davenport.

If interested, write us for special booklet with illustrations of different designs, detailed information and prices, which we will gladly send upon request.

**"Daveno" Sofa Beds,  
\$28.50 upwards.**

## Our Line of Davenports

We display in our store unquestionably the most beautiful assortment of high grade davenports shown by any store in Canada. All the designs are entirely new, and we guarantee to save money on the purchase, as well as absolute satisfaction.

On the next page we show three designs of davenports that illustrate how very low our regular prices are in comparison with quotations offered by other furniture houses.

Samples of coverings used in upholstering davenports will be sent, when desired colors are mentioned, without charge.

No. 4101. Davenport Sofa Bed

This handsome davenport is of mission design, sturdy and artistic in appearance. Frame is of selected quarter-cut oak and may be had in golden or early English finish, as desired. Seat and back is generously filled with best oil-tempered springs and upholstered in the very best manner in either velours or verona of assorted colors and patterns, double stuffed and closely buttoned tufted. By a very simple movement this luxurious parlor davenport sofa can be changed into a large, comfortable, double bed. Under the seat is a commodious box wardrobe for bedding, etc., keeping bed clothing entirely out of sight when not in use. Extreme length of davenport, 6 feet 9 inches. Biggest value we know of. No. 4104. Steel Folding Bed Couch

Here is shown the best extension steel couch on the market. It is virtually two couches in one, as, if desired, it may be separated without the least trouble and each section can be used quite apart. Frame is made of angle-steel with fine woven wire fabric, spring top, and is practically indestructible. The illustration shows structure closed to couch size. When required, it can be extended to make a bed four feet wide; a strong, safe, sanitary and comfortable bed couch at little cost.

**Price, \$5.65.** Shipping weight, 80 lbs.

Folding Mattress to fit this bed couch with heavy green denim cover and felted cotton filling, with valance on front and sides. Price **\$5.35** in Green Denim **\$6.50** in Fancy Crotone.

No. 4102. Davenport Sofa Bed

A decidedly handsome and well-designed davenport that we offer at a remarkably low price. The frames are made of solid golden oak in early English or mahogany finish, hand-polished, upholstered spring seat and back fine oil-tempered springs used in the construction. Coverings of velours and verona, double stuffed and buttoned tufted with ruffled border across front. The manner of converting this magnificent davenport from a sofa into a large double bed is so simple a little child could operate it. Commodious box for storing bed clothes, etc., when not in use. Extreme length of davenport, 6 feet 9 inches; bed when open, 4 feet 2 inches by 6 feet 2 inches. Mounted on easy running casters. Prices:

## REED AND RATTAN FURNITURE

There is no style of furniture made that is so adaptable to use in any room of the house as Reed Goods. For the sitting room, bedroom or parlor, nothing refreshes and tones up the room as the addition of one or more pieces of Reed Furniture. On these pages we have endeavored to give, in the limited space, as varied an assortment as would afford a good selection, and have shown none but goods that are entirely dependable. In the manufacture of these chairs, rockers, etc., nothing but the finest material obtainable is used, and only the best artisans and skilled mechanics are employed. If you have any means of comparing our quotations with others who sell **First Grade** goods, you will be pleasantly surprised at our prices.

# Adams Special Solid Oak Rocker

No. 3530

## A New and Handsome Design Rocker

A rocker must be generous in size and well proportioned in order to contribute that degree of comfort we all so much desire at the close of day.

This elegant rocker has been pronounced by experts to be the most graceful design that has been produced in years, and we take considerable pride in being able to offer it to our patrons at such a wonderfully low price. It should be borne in mind that only the best selected quarter cut oak is used in this rocker, and though the illustration is a faithful representation of it, yet it cannot do justice to the rich effect that is contained in the original.

## The Design is One of Unusual Merit

The long spindles, which continue from arm to rocker, are a new feature in rocker construction. The poise is perfect and rocker is large and roomy. The broad seat is of the full roll design, which insures the utmost comfort; back is shaped so as to fit the body exactly right; arms are broad and massive; carvings are elaborate in keeping with general design.

Only by reason of the immense orders that we place with our factory are we able to offer the values shown on these pages.

**IS OUR PRICE FOR  
THIS ROCKER**  
Equal value would  
cost \$10 elsewhere

This handsome parlor rocker is built of quarter-sawn oak of the choicest selection. In selecting the oak we use only the stock showing all of the handsome flaking and figure of the wood. It is finished in a rich shade of golden, and is hand-rubbed and polished to a mirror-like brilliancy.

## The Construction

Is absolutely high-grade in every respect. Every rocker is carefully inspected before leaving factory, and the finishing most carefully executed. Back is very broad and comfortably shaped; seat is of the full roll design, which is only found in the highest grade of rockers; arms are very broad and of the sloping design; the front posts are very shapely of 1½-inch stock, richly carved; for genuine comfort this rocker cannot be excelled.

## Our Line of Rockers

On this and preceding pages are all new in design and comprise the choice of the market. The prices we quote are calculated to save you from 20 to 30% on what is regularly asked for equal value. We offer them with the distinct guarantee that they are entirely as we represent them, and if not found so we will cheerfully refund the purchase price.

# Adams Special Morris Chair

## On this and the following pages

will be found a line of Morris Chairs which we are certain are unsurpassed for variety, quality and general good design by any collection that is shown in any other store in the Dominion. Morris Chairs are very carefully selected from factories that make a specialty of this style of chair, and we guarantee every chair shown in our catalogue to be absolutely as we represent them, and each illustration to be a photographic reproduction of the actual chair.

**\$8.75** FOR THIS HAND-SOME CHAIR.

A price that by no means conveys a proper idea of the careful workmanship and good style.

It is a chair that makes friends at once.

The beautiful flaked oak (quarter-sawn to produce an elegant rich marking of the wood) is hand-rubbed and given a brilliant polish finish, the oak is carefully selected and thoroughly kiln-dried before being made into frames.

The carvings are unusually rich and in excellent taste. The cushions and upholstery is high class in every respect.

If comparisons are made, it will be found that our price for this chair is at least 25 per cent. below what a chair of equal value can be obtained for elsewhere.

No. 2119

**Frame is made of solid oak, quarter-sawn.**

Nothing but the finest selected white oak is used in the frames of this chair, and the beautiful flaked grain is brought out by a quarter-sawing process. The design is one of the best that we have ever seen. It has very richly hand carved massive frames, with deeply carved knuckles; the front posts are very shapely, ending in massively carved claw feet; frames are hand-rubbed to a brilliant polished finish.

**Back Adjustable to Four Positions**

Each chair is fitted with bracket and solid brass rod, which allows back to be arranged to four comfortable positions, a feature that has made the Morris Chair famous.

**Cushions.**

Each chair is fitted with two large upholstered cushions with coverings of the best grade of imported figured velours. Coverings are the same back and front and are button tufted, thus making cushions reversible, adding double life to the wear; cushions may be had in assorted colorings in green, reds, browns, etc. Samples of velour coverings sent on request.

# Macey Sectional Bookcases

## A Perfect Bookcase Door

The Macey device for controlling the door consists of two pinions, one at each end of a shaft on which the door is hung. When the door is raised to a horizontal position and retired, the pinions traveling over parallel racks prevent one end advancing faster than the other, hence a non binding door—THAT DON'T BIND.

Door is removable, does not encroach upon book space, and cannot injure the books.

## Macey End Bands

Are made so they cannot pull off—a common fault with the old method of nailing into the end grain of the wood only. Made of metal, finished to harmonize with the various wood finishes, they are pleasing to the eye and a protection to the bookcase.

It is the only perfected device for holding the sections end to end in exact horizontal and vertical alignment on the market.

# Macey Filing Cabinets and Cabinet Supplies

## MACEY INTER-INTER FILING CABINETS

This new line of filing appliances (illustrated above) represents the most radical departure from existing methods of construction since the introduction of the sectional idea.

The almost endless variety of sections brought out by filing cabinet manufacturers has developed vast and complicated assortments of sections, tops, bases, loose ends, etc., which have only served to complicate instead of simplify the filing problem.

In the Inter-Inter line, we have reduced the appliances to a few dozen, capable of an endless variety of combinations, and accommodating hundreds of filing subjects. It consists of finished outer cabinets or shells, 52 inches high, 20 inches deep, and 15, 18, 21 or 28 inches wide. The various filing appliances are arranged in skeleton interior units of standard dimensions, made interchangeable so that any desired combination can be produced. It obviates the necessity of starting with a larger outfit than the immediate requirements warrant, and makes it possible to change the system at any time by merely changing the interiors to conform with new requirements. Our handsomely illustrated catalogue of these and other "Macey" goods is free for the asking. Every business man should have it on his desk. A post card brings it.

### High-Grade Office and Library Furniture

Business often gets tangled because the system that is supposed to govern it is ineffective. An effective system can be quickly brought about by the use of modern appliances. We have simple devices for minimizing office work—filing cabinets and card index systems, besides conveniently appointed desks and other equipment that go to make up a thoroughly complete office, either for the business or professional man.

We can supply special Office Furnishings for Doctors, Dentists, Lawyers, Brokers, etc., etc.

## Colonial Dining Room Suite

SOLID MAHOGANY

Truthful reproductions of the styles in vogue during the Colonial days.

We show on our floors beautiful examples of period furniture for Dining Room, Bedroom, Drawing-room, etc. Many rich and exclusive things that are not to be seen elsewhere; and instead of pricing it, as do stores who show this furniture exclusively, we ask only a fair margin of profit, the same as quoted on the more staple and regular lines.

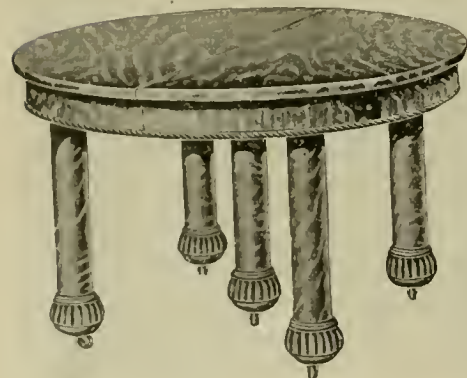

We make no extra charge for Art and Exclusive-ness in this store.

We will gladly send illustrations of other designs upon request.

# Remarkable Values in Dining Tables

Our ability to sell thoroughly well-made and desirable furniture at a lower price than other stores is strongly exemplified in this massive dining table.

We exhibit in our store the largest range of tables shown in any store in the Dominion. Not only is our collection a large one, but well chosen, as will be seen by a glance at this and the following pages:

Our price for this handsome round top solid oak extension table is only **\$10.85**

In no single particular does this splendid table suffer because of the very low price we ask for it; it is built in the best possible way—just as are all the tables in our immense stock; only thoroughly well-seasoned, kiln dried oak is used in the manufacture, and the workmanship and finish are of the same grade as tables costing twice, and upwards, the money we ask: it is a design that has met with the popular approval of furniture buyers in the last two or three years, and bids fair to increase in popularity. We are certain that nowhere can a table of similar quality and appearance be bought within 25% of our price.

**Construction:** This table is built throughout of selected oak; it is handsomely finished in a rich shade of golden; the top is perfectly round and 42 inches in diameter; it is hand rubbed and finished with a brilliant polish; the box rim around table is deep and of heavy construction; 5 massive turned solid legs, nicely fluted and of a specially good design; legs are bolted and firmly attached to table, mounted on easy-running casters; three solid oak leaves go with each table for use when extended; leaves are made and fitted well; table extends full six feet; it is, indeed, wonderful value at our price of \$10.85.

This table may be had to extend eight feet if desired; price \$11.85. Shipping weight, 200 lbs.

No. 1624

**Our Price of \$10.85** for this handsome table is made possible only by the immense orders which we place with the manufacturer, which has enabled us to obtain concessions in price not to be had by stores who buy in smaller quantities. Our wonderful buying capacity enables us to own our furniture a great deal lower than any other concern in the country, and it is for this reason that we can offer the excellent values in tables on these pages. Comparisons will convince anyone who will take the trouble to make them.

# This Elegant Solid Oak Sideboard, \$16.85

A massive sideboard lends dignity to the dining room that exerts its influence through the entire house.

The housewife takes pride in such a board. She loves to display upon it her choicest bits of china and cut glass.

There is no dining room in the city or country which this sideboard will not improve.

## The Design

Is exactly like illustration, and is more than ordinarily handsome, being built somewhat on the staid old colonial lines with modern improvements, rich carvings on top and in front of base. Cupboard doors and drawers have solid brass handles and trimmings. A large British bevel mirror, size 18 x 36 inches, adds much to the general appearance; particularly striking are the two massive colonial posts which support the upper shelf.

## The Material

Used in the construction of this sideboard is solid oak, a wood that is only to be found in sideboards of the best grade. It is thoroughly seasoned and kiln dried before the making process. The finish is a beautiful rich surface golden quarter cut oak, and in appearance this sideboard would easily go for one priced regularly at \$35.00. The interior is well finished and trimmings are first class, handles and drawer pulls being of solid cast brass. The case contains one long linen drawer and two cutlery drawers—one lined for silverware, etc.—and large double cupboard. The top is very ornamental, being elaborately carved; one long shelf supported by a heavy column on either side, to each of which is attached a smaller shelf; in the back is a large British bevel mirror, size 18 x 36 inches; case top measures 22 x 48 inches. Sideboard is highly polished throughout.

## The Price, \$16.85

In no wise indicates the value of this handsome board. It is only by reason of the enormous output which enables us to command the very lowest market prices. Our orders for this one design alone would probably exceed the total number of sideboards handled by many of the largest stores in the country. It is a conspicuous example of our ability to provide our patrons with dependable and durable furniture at much lower prices than can be gotten elsewhere.

## Our Guarantee

Covers everything shown in our catalogue or sold in our store. Everything is exactly as represented, and we absolutely agree to refund the purchase price of anything that does not correspond with our description of the article. Nothing can be fairer than this.

## Solid Oak Dining Chairs LEATHER UPHOLSTERED

Consisting of 5 Side Chairs and 1 Arm Chair for

# \$16.95

One of the many designs of Dining Chairs that we sell at an incomparably small price. These handsome chairs are of solid oak, made as solidly as the cabinetmaker knows how to make them; the box frame gives the legs additional support and holds the upholstered seat firmly in position under the greatest pressure.

Being exceptionally well finished and becomingly polished, they are worthy of a place in the most refined home.

### The Frames

are of good design, with box seat construction, thoroughly seasoned, kiln-dried oak being used throughout: backs of chairs have quarter-cut oak panels, especial care being taken in selecting the wood used in these backs; legs and arms are neatly shaped and are hand-rubbed, having a brilliant polished finish; arm chairs are strongly braced.

### The Upholstering

of these chairs is done under our own supervision, and only best No. 1 leather is used. The padded seats are extra large and very comfortably stuffed. This work is on a par with that of our very highest grade chairs.

### The Price

It is doubtful if value in dining chairs to equal these special diners can be gotten in any other store under 25 per cent. of what we are quoting hereunder.

**Side Chairs, each \$2.45** Shipping weight, 25 lbs.

**Arm Chair, \$4.75** Shipping weight, 30 lbs.

**All of Our Dining Chairs** are made in full standard sizes. In no case do we sacrifice the quality in order to make prices low. It is only reasonable to infer that where our output is so enormous that we can secure concessions in price from the makers that are not possible with stores that buy in meager quantities. Our position is exceptional in this respect—being the largest dispensers of homefurnishings in the Dominion. We can always save our patrons much of the usual cost.

# Wonderful Value in a Great, Comfortable Rocker

Worth certainly cannot be measured by price. It is hardly necessary to elaborate upon this handsome piece of furniture when we tell you that the illustration is an exact photographic reproduction of the rocker itself. Nevertheless, the wonderful value pictured here borders so closely on the impossible, that we wish to give a careful explanation of the composition of this rocker.

## The Frame

Of this rocker is built of thoroughly seasoned kiln-dried solid oak with front posts of nicely figured quarter sawed oak; the design is one that has been drawn with comfort as the first object. This aim has been fully accomplished, as no more comfortable rocker could be imagined. The finish of frames is first-class in every particular—strength being a prominent feature in the construction.

## The Upholstering

The pad seat, back and arms are covered with leatherette—a material that so closely resembles leather that few but experts will detect the difference. The material we use is of extra strong grade and will wear like iron. This covering is soft and pliable and gives the rocker an extremely rich appearance.

## The Price of this Rocker

Exemplifies our ability to offer desirable and dependable furniture at prices very much lower than other stores. Buying our materials in immense quantities and producing these special designs in large numbers, we are enabled to quote extraordinary low prices. Were we a small concern, it would be impossible for us to sell you a rocker of this description at anywhere near the price asked.

We are the greatest distributors of homefurnishings in the Dominion, and this largely explains our position in offering the great values contained in this catalogue.

This is a typical "Adams" value—the greatest upholstered rocker value of the age.

## Bedroom Furniture

Present-day tendency is to make the bedroom one of the most cheerful apartments of the house. Certainly no room is deserving of more attention in the matter of furnishing, for herein, it is said, we spend one-third of our lives. Pleasing results can only be obtained where artistic effort and comfort are harmoniously blended. We are certain that no store presents a larger or better assortment of furniture for this important room than is shown in our immense display of Bedroom Suites, Metal Beds, Dressers and Stands, Chiffoniers, Dressing Tables, Bureaus, Rockers and everything that goes to make this room inviting and attractive; and while the quality of our furniture is above the average, we have moderated our prices to meet those of the lower grades.

**No. 213. # Extraordinary Values in Beautiful Bedroom Furniture

NO. 123  
Dresser

Superior bedroom pieces of properly seasoned woods, properly joined and finished, are features of the "Adams" Store. In this branch of the business every possible attention is given to the little details—the brass handles, the polish and grain of the wood, the proportions, the avoidance of drawers that bind—thus insuring perfectly satisfactory pieces of furniture.

This handsome dresser is a good type of the kind sold at small prices. Everything that goes to make up a thorough article is to be found in this dresser—the design, the workmanship and finish, all are of a superior quality.

## We offer this dainty Dresser for \$14.65

**IT IS MADE OF SOLID OAK** thoroughly kiln-dried before being made up; has a rich golden quarter-cut surface oak finish and is highly polished, every care being given to produce a high-grade piece of furniture and in no case sacrificing quality in order to make a low price.

**THE DESIGN** is a most pleasing one and will appeal very strongly to those who appreciate artistic home furnishings. It is exactly like illustration—the cut being a photographic reproduction of the original. The case contains three drawers—one, full width of dresser, being specially large and commodious, and is fitted with lock; the two upper drawers, which are also spacious and have well shaped fronts, are all nicely fitted to keep out dust and are very easy running; drawers have solid cast brass handles and trimmings; the bottom rail of case has rich raised carvings; case top measures 22 x 45 inches; paneled ends and shaped legs, mounted on easy running casters; dresser stands well up from floor.

The large oval mirror in top is of best British bevel plate, size 18 x 40 inches, is contained in a nicely shaped frame, very elaborately hand carved at top and supported by graceful shaped standards, which also are embellished with rich raised carvings; mirror is set to swing at any angle. It is altogether a splendid piece of furniture.

**The price \$14.65** is an example of the wonderfully low prices we are offering high-grade furniture on these pages. It is only by reason of the immense quantities of furniture that we buy and dispose of annually that we are able to quote such phenomenal values. Our guarantee goes with all that we sell—everything is exactly as represented by us, and if not found so, customers are invited to return goods, and money will be cheerfully refunded without any hesitation.

# The Adams Line of Brass and Iron Beds

On this, and the following pages, we present a line of metal beds that are unmatched in point of design, material, construction and finish by any other showing in the Dominion. Our long experience in the home-furnishing business has taught us many things in regard to metal beds and this knowledge reverts to the benefit of our patrons.

## This beautiful design Enamel and Brass Bed

Illustrated herewith, is an exact reproduction of one of our many handsome patterns in metal beds, and is a speaking picture of the wonderful value that we are able to present to patrons of the "Adams" store. This excellent design is controlled by us and cannot be had in any other store. There are few beds at any price that can equal this one. It is a new conception of a noted bed designer.

### The Material

in this bed consists of the finest quality of malleable iron and tempered steel; pillars, or posts, are 1 1/16 inches thick; the fillers comprising the ornamental scroll work in head and foot are of 3/16 inch solid iron; these are well secured by heavy cast bolts in rosette patterns; head and foot have brass rod in centre, giving an added touch of richness to the whole design. Height of head, 65 inches; height of foot, 48 inches.

### Construction

is the best that can be produced—every part being carefully molded, framed and joined; the side rails of bed consist of heavy angle iron, which makes bed perfectly rigid when set up.

### Finish

is of the best, all parts are carefully rubbed smooth and several coatings of best grade enamel are applied, each coating being thoroughly baked and hardened; brass rods are finished with fine English lacquer, preventing their discoloring.

### The price, \$6.95

is remarkably low for a bed of such good design and quality. We place many orders for these beds, and in consequence we pay the makers the very lowest price, and, in turn, make the price to our patrons on a small profit margin, thus quoting prices that are from 20 to 30 per cent. under the regular furniture store prices; made in 4 ft. and 4 ft. 6 in. widths only.

**Our Guarantee** goes with this, and every bed we sell. Everything that we show in this catalogue must be exactly as represented, and if you do not find it so, we will refund the purchase price without question or quibbling.

# SPRINGS, MATTRESSES, BEDDING

It is a well-established fact that unsanitary pillows and mattresses not only produce insomnia, but ultimately impair health.

The "Adams" Bedding is sanitarily pure. Nothing enters into the making of it but what is clean and wholesome; there are no indifferent methods tolerated, and you are asked to pay no more for this bedding made under our improved system than for the unsanitary kind that we do not, and will not, countenance at any price.

We guarantee the quality and durability of Mattresses, Pillows, Springs, and everything else in the bedding line.

makes the ideal bed for health and ease, and costs less than all other beds when durability and

**The "Featherfelt" is made in two parts without any extra charge**—an advantage that will be appreciated by every housewife when turning the mattress and making up bed each day. It is built up—not stuffed—as most mattresses are—of fluffy layers of felted cotton, especially treated to produce a minimum of weight. "Featherfelt" is a new product, the result of much experimenting along scientific lines of mattress making; a soft, silky and springy material that when made up into mattress form produces the grandest bed on the market. We are Canadian Agents for this excellent mattress. "Featherfelt" prices:

# Floor Coverings

Furniture and Carpets have always been treated as close relations in our great homefurnishing establishment. During the thirty odd years it has taken to build up the greatest furniture business in Canada, the greatest carpet store has followed along as a natural consequence.

Some idea of the immensity of the stock can be had when we tell you that our carpet floor has an area of nearly 10,000 square feet, always stocked to its utmost capacity with the newest and best lines the most noted manufacturers of the world produce. Our carpet prices are especially appreciated by those housekeepers of discernment and taste who delight to know that the best may be purchased at a price not higher than is frequently asked for the inferior.

Do not hesitate to write us for samples of any desired lines. Always mention preferred colors and any ideas you may have in regard to choice. We will spare no pains to meet your wishes in every way.

## ENGLISH AXMINSTER CARPETS

27 inches wide

The very highest type of the carpet-maker's art is represented in our English Axminster. This style of floor covering is guaranteed to give more wear and retain its luxurious feeling and appearance longer than any other make. Our selections of this line are very extensive, and include several grades and a great variety of colors and designs. Borders are 18 and 22½ inches wide. *Samples upon request.* Prices

SPECIMEN DIAGRAM

### Measuring Rooms for Carpet

In taking measurements for Carpets, the utmost care should be taken to be exact. In cases where there are recesses or bay windows that project beyond the square of the room, a diagram should be drawn, showing exactly their shapes and positions with exact measurements filled in. Also state whether the strips of carpet are to run with the length or with the width of the room. An allowance of two yards for each room should be made for matching the patterns, as an average of one-quarter of a yard per strip is lost in this way. (If there is less waste, money will be refunded.) By carefully observing these instructions you will make it easier for us to quickly and accurately attend to your orders.

## OUR "DOLLAR BRUSSELS"

Housekeepers who have long sought a carpet that has style and richness of appearance equal to that required in the "best room" of the house, and which will withstand unusual hard wear, will find in our Famous \$1.00 Brussels a floor covering to give eminent satisfaction. Made to our order in a beautiful range of patterns and colorings, samples of which we will be pleased to send upon request (when preferred color is stated).

## TAPESTRY CARPET

27 inches wide

Tapestry Carpet is one of the most popular styles of medium priced floor coverings. The material is such as to admit of rich colorings and fine appearance combined with extraordinary durability. We carry a large range of patterns and colors in tapestry carpet. For a general purpose carpet, a tapestry is hard to improve upon. Borders can be furnished with the 75-cent quality only. *Samples upon request.* Prices per yard

40, 50, 60 and 75c

## UNION INGRAIN CARPET

36 inches wide

For those desiring a low priced floor covering for spare rooms, or in fact any room of the house but the parlor, where small expense is the consideration, we recommend an ingrain carpet. Made of strong cotton and wool in a variety of good patterns and colorings in one full yard width, reversible. *Samples upon request.* Prices per yard

# RUGS AND DOOR MATS

## AXMINSTER RUGS OR MATS

The same excellent quality is found in these Rugs as is predominant in our Axminster carpets. The pile is long and luxurious—the colors and designs are numerous and of many different combinations. They are made in three sizes and in several different grades:

12 x 30 inches.....	\$0.50 to \$1.00 each
27 x 54 " .....	2.00 to 3.50 "
36 x 63 " .....	4.00 to 5.00 "

## WILTON RUGS OR MATS

Almost everyone knows the excellent wearing qualities and rich appearance of Wilton floor coverings. Our Wilton Door Mats and Hearth Rugs have the same rich appearance, durability and long luxuriant pile. Made in rich, handsome designs:

12 x 30 inches.....	\$1.25 each
27 x 54 " .....	4.25 "
36 x 63 " .....	6.50 "

## JAPANESE MATTING

The ingenuity of the Jap is nowhere better exemplified than in making of floor coverings. The endless designs and intricate patterns worked up in Jap matting are without a limit as to variety. This handsome, though inexpensive, floor covering is very much used in bedrooms, being easily kept clean and sweet. It is better adapted to Summer Cottage use than any other form of coverings for floors. Made of a peculiarly strong, hard straw, closely woven with cotton warp and in many shades and colorings. Full 36 inches wide. Prices:

Per yard.....10, 12½, 15, 20, 25 and 50 cents.

## CHINA MATTINGS

An inexpensive floor covering; soft and cool under foot and so thick as to be almost noiseless. It is made of long, colored straw with straw warp. Makes a fine fl or covering for a bedroom and is especially suitable for the Summer Cottage; made in a good assortment of colors and floral designs in one yard widths only.

Several grades at.....10, 12½, 15, 20 and 25 cents per yard.

## LINOLEUM—Plain and Printed

Linoleum is too well and favorably known to require any comment as to its lasting qualities. Preferred by many to carpet for sanitary reasons, being easily kept clean and wholesome, and is a much warmer floor covering than oilcloth. Made in an immense variety of floral and check designs, also in plain brown cork color. For use in kitchens, dining rooms, bath rooms, stores and offices.

The plain brown Linoleum is made in two yard widths only, at 30, 40, and 50 cents per square yard.

Printed Linoleums are

2 yard widths at.....	35, 40, 50 and 65 cents per square yard
4 yard widths at.....	45 and 65 cents per square yard

## MOHAIR RUGS OR MATS

The border of a Mohair Door Mat or Hearth Rug resembles plain mohair plush. The centre is of the same material, but the long pile has a rough, curly effect; made only in solid colors. This makes one of the most luxuriant styles of rugs. Our rugs are in the best quality only, and made in three sizes:

12 x 30 inches.....	\$0.85 each
27 x 54 " .....	3.50 "
36 x 63 " .....	4.75 "

## WIRE VESTIBULE MATS

Our Wire Door Mats are heavily woven and about one inch in thickness; bound at the edges with a heavy iron band. A commendable feature of this mat is the fact that it cannot retain any dirt, and is easily cleaned; besides being naturally very durable.

Made in three sizes:

16 x 24 inches .....	\$0.85 each
18 x 30 " .....	1.10 "
22 x 36 " .....	1.75 "

## COCOA DOOR MATS

Our Cocoa Door Mats are all one quality—the very best to be had. Made of extra fine, heavy brush with heavy rope backing. Suitable for vestibules or doorways of any description where a mat is required to remove dirt from the feet. Our mats are made in six sizes:

14 x 24 inches.....	\$0.60 each
16 x 27 " .....	0.75 "
18 x 30 " .....	1.00 "
22 x 36 " .....	1.50 "
26 x 42 " .....	2.00 "
30 x 48 " .....	2.50 "

## CORRUGATED RUBBER DOOR MATS

This mat is neat in appearance, very durable and never fails to remove dirt from the shoes. Also very easy to clean and cannot retain dirt. Made in one size only:

18 x 30 inches.....	\$1.75 each
36 inch Rubber Matting, ½-inch.....	\$2.00 yard

## COCOA MATTING

Made especially for a runner on the verandah or on the outside steps. It is indispensable in cold weather when the steps are slippery. It is made in four widths:

22½ inches wide .....	35 cents per yard
27 " " .....	45 " " "
36 " " .....	50, 60, 75 " " "
45 " " .....	75 " " "

## FLOOR OILCLOTH

Our stock of oilcloth is extensive in its range of patterns and colors; perfectly reliable in the quality of material and very moderate in price. We carry a full line of special designs for kitchen, bath room and dining room. In bright, rich colors, or quiet, subdued shades; in geometrical designs, check patterns and floral designs. In 1, 1½, 1½ and 2½ yard widths.

Per square yard.....25, 30, 35 and 40 cents.

## INLAID LINOLEUMS

Made in England, where they know how to make many things better than we do in this country. The advantage of Inlaid Linoleum over the ordinary kind is in that the pattern and colors run through to the back, making it absolutely impossible for design to wear off until the cloth has worn through. Our choice of patterns is handsome indeed, in large and small checks and tile designs. Made in two yard widths only. Prices:

Per square yard.....75c, 90c, \$1.00, 1.25

# About Our Excellent Line of Kitchen Cabinets

We show undoubtedly the largest and best assortment of Kitchen Cabinets of any store in Canada.

Our line of Kitchen Cabinets is so large and comprehensive that it requires a special catalogue to show them. We have made a specialty of selling Kitchen Cabinets and know every make from A to Z, having tested the merits of all that appeared worth trying, finally confining ourselves to our present line, which we know to be unmatched by any other showing.

Our special catalogue of Kitchen Cabinets will be gladly sent free to any address upon request. It contains a lot of good reading for homekeepers who are interested in having order and system in the kitchen. A good Kitchen Cabinet will save miles of walking and a lot of unnecessary waste of materials in a very short time.

## Canadian Depot For the Famous "HOOSIER" Line of Kitchen Cabinets

Loads of time, wear and worry are saved by these convenient cabinets, which enables the housewife to have all the needed things when preparing dishes and when baking within arms reach. No walking from place to place and hunting high and low for every little thing—but one cabinet to hold practically all the kitchen needs.

Some of the "Hoosier" features are: a patent flour bin that holds 50 lbs. of flour, which is put in at the top and comes out as wanted all ready sifted. A novel sugar bin, spice cabinets, bread and cake box, recipe cabinet, pan racks, sliding shelves, tea and coffee canisters, drawers and racks for everything; and an aluminum baking top which provides the only metal covered bake board that is proof against the corrosive action of food stuffs.

These Cabinets are splendidly built of solid oak in golden finish, the woods being seasoned to withstand the variations of kitchen temperature, handsomely paneled and finished. All drawers work easily and are perfectly tight and dust-proof.

### Kitchen Tables

Strongly and substantially made, and neatly finished. Masswood top, hardwood turned legs, frame securely bolted. Fitted with drawer. Made in three sizes.

## The "TREASURE" Line of RANGES and HEATERS

Buying a stove is not an everyday occurrence, and one very properly looks for a stove that has the strongest points of superiority. Our long experience in supplying homes with comforts and necessities has given us no little concern in the matter of the selection of a really first-class stove. We have become familiar with all makes and makers, and after much testing and trying we unhesitatingly accepted the "Treasure" line as the most satisfactory of all. We do not carry a variety of makers' stoves, but we have the choicest variety of stoves to be seen anywhere—all made by one good firm, who do not make any stoves they cannot guarantee. The makers of the "Treasure" line of Ranges and Heaters—nearly sixty years in the business—have long ago passed the experimental age, combine all the up-to-date features of stove construction with their own knowledge of stove building, and produce the finest stoves in the market to-day. These are the stoves we sell. Send for Price List.
